

Captain Mark Kelly

Endeavour to Succeed

Thursday, October 12, 7:30 p.m.

With an extraordinary career of service to our military, our nation, and humanity, NASA space mission commander Mark Kelly is a role model, modern-day pioneer, and leader. With his twin brother, Scott, he has laid the groundwork for future space exploration as subjects of an unprecedented NASA study on the effects of space on the human body.

Kelly shares lessons learned from extensive travels, the Navy, outer space, and on the ground. From leading teams in some of the most dynamic environments imaginable, to the thrill of spaceflight, and the resilience of his wife Gabrielle Giffords.

Anthony Wayne Services is co-sponsoring this lecture.

Tickets for Mark Kelly's lecture will be available at 12:30 p.m. on September 25.
